Thank you very much for attending our Marine Identification Part I course previously. We hope that it has been useful in your diving since then. We are pleased to be able to advise that we have arranged a Marine Identification Part II (ecology) course and it will be run at Leeson House in Langton Matravers near Swanage.

The course follows the same format as the first course with classroom sessions on Saturday and Sunday mornings and a dive on Saturday afternoon to have a look at the different habitats under the pier at Swanage.

The aim of the course is to expand on the knowledge gained during the first course. We hope to show how marine life is affected by its habitat and how the type of habitat will influence the variety of animals, fish and plants that will be found there. This can be of great assistance when the dive location is not the one you had expected from the dive briefing on the boat. Knowledge of the habitat type and marine life you can expect to find there will allow this to still be an interesting dive. A second dive on Sunday can be arranged if sufficient people are interested.

The cost of the course is **£**75 and this covers the use of the classroom, parking at Leeson House, MCS course notes and Tea / Coffee on both days.

A deposit of **£20** is required and the balance due on or before the course. Please make all cheques payable to: **MCS (S.E.)** and forward to me at the above address.

Please Note to reduce costs to the Society no confirmation of booking will be sent, but you will be advised if the course is unable to run.

If you require any further information please do not hesitate to contact me.
